Section II—Cover Sheet

This cover sheet is to be completed for each Time Extension (TE) or Alternative Diversion Requirement (ADR) requested.

1. Eligibility

Has your jurisdiction filed its Source Reduction and Recycling Element, Household Hazardous Waste Element, and Nondisposal Facility Element with the Board (must have been filed by July 1, 1998 if you are requesting an ADR)?

☐ No. If no, stop; not eligible for a TE or ADR.

☒ Yes. If yes, then eligible for a TE or ADR.

2. Specific Request and Length of Request

Please specify the request desired.

☒ **Time Extension Request**

Specific years requested 2004, 2005

Is this a second request? ☐ No ☒ Yes Specific years requested. 2001-2003

(Note: Requests for an additional extension will need to address why the jurisdiction's efforts to meet the 50% goal by the end of the first extension were not successful.)

☐ **Alternative Diversion Requirement Request (Not allowed for Regional Agencies).**

Specific ADR requested %, for the years

Is this a second ADR request? ☐ No ☐ Yes Specific ADR requested %, for the years

(Note: Requests for an additional ADR will need to address why the jurisdiction's efforts to meet 50% by the end of the first ADR period were not successful.)

Note: Extensions may be requested anytime by a jurisdiction, but will only be effective in the years from January 1, 2000 to January 1, 2006. An original request for a TE/ADR may be granted for any period up to three years and subsequent requests for TE/ADR may extend the original request or be based on new circumstances but the total number of years for all requests cannot total more than five years or extend beyond January 1, 2006.

Section IIIA—TIME EXTENSION

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's progress in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIA-1).

1. Why does your jurisdiction need more time to meet the 50% goal? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

Since our initial request for time extension, the City of Antioch has been busy implementing or expanding the programs indicated in the Plan of Correction. The City implemented most of the selected programs, but has realized delays in contract negotiation with our franchised hauler, issues with citywide growth and increased self haul. Contract negotiations has grown to include a complete revision of the franchise agreement, which in the long term will better serve the diversion requirements for the City of Antioch.

The city has realized a dramatic increase in self haul tonnage going to the local transfer station in Pittsburg, CA. Since 2000, the tonnage originating from Antioch that is landfilled at the Contra Costa Waste Recycling & Transfer Station has tripled. Self-haul currently accounts for 23% of our total disposal. This is a part of the waste stream that the city has very little control over. Additional time is needed verify the validity of this data and to better understand this increase.

The city of Antioch continues to experience construction growth. While this type of economic growth has dramatic effects on the waste stream, it is not fully captured in taxable sales figures and thus not captured in the adjustment method. The city is working to reduce the waste impacts of construction by implementing a Construction and Demolition Debris Recycling Ordinance (C&D Ordinance). This ordinance was implemented in May, 2004 and additional time is needed to realize the full effects of this diversion activity.

2. Why does your jurisdiction need the amount of time requested? Describe any relevant circumstances in the jurisdiction that contribute to the need for a Time Extension.

The City hopes that the additional time will be sufficient to complete the contract negotiations, implement the corresponding programs and realize the full effects of the C&D ordinance. Staff has been in contract negotiations with our franchised hauler for the past two years in an attempt to expand the current residential recycling program. The contract negotiations have now expanded to include a complete revision of the franchise agreement which, when completed will improve all of the collection programs for Antioch.

As mentioned in the response to question 1 above, the city has implemented a C&D Ordinance. Staff anticipates that this ordinance will increase diversion dramatically and help to decrease the landfill tonnage attributed to self haul at the transfer station. This program was not selected in our SRRE or in our first request for time extension, but will be included in the plan of correction for this time extension.

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

In November, 2002 the city hired a part-time Recycling Assistant. This position has continued to work on beverage container and motor oil recycling programs which has expanded the staffing dedicated to solid waste activities. Staff has continued to implement new recycling programs at public venues, businesses and schools. We have also continued to partner with neighboring communities to do outreach above what was highlighted in our previous Plan of Correction.

4. Provide any additional relevant information that supports the request.

Section IIIB—ALTERNATIVE DIVERSION REQUIREMENT

Within this section, discuss your jurisdiction's progress in implementing diversion programs that were planned to achieve 50%. Provide any additional information that demonstrates "good faith effort." The CIWMB shall determine your jurisdiction's efforts in demonstrating "good faith effort" towards complying with AB 939. Note: The answers to each question should be comprehensive and provide specific details regarding the jurisdiction's situation.

Attach additional sheets if necessary—please reference each response to the appropriate cell number (e.g., IIIB-1.).

1. Why does your jurisdiction need and Alternative Diversion Requirement? Describe why SRRE selected programs did not achieve 50% diversion. Identify barriers to meeting the 50% goal and briefly indicate how they will be overcome.

2. Why is your jurisdiction requesting an Alternative Diversion Requirement in lieu of a Time Extension?

3. Describe your jurisdiction's Good Faith Efforts to implement the programs in its SRRE.

4. Describe any relevant circumstances in the jurisdiction that contribute to the need for an ADR. Provide any relevant information that supports the request.

Section IV A—PLAN OF CORRECTION

A Plan of Correction is required by PRC Section 41820(a)(6)(B). The plan is fundamentally a description of the actions the jurisdiction will take to meet the 50% goal by the expiration of the Time Extension.
